

Information on cultivation obligation

June 21,2021

Kerkateskánd

Dear Property Owner,

For your information I would like to let you know that your property is located in the closed garden part of Kerkateskánd, which is part of the Zala Wine Region.

Please note that you are obliged to take care of your property according to the cultivation branch. Keep your area weed-free, remove invasive tree species (acacia) and the golden-yellow phytoplasmic carrier (forest strip and uncultivated grapes) from your area. In the wine region, the branches of cultivation are: vineyards, orchards, lawns, arable land. In an outlying area (enclosed garden), the acting authority is the real estate authority, which may make a decision binding on the payment of a land protection fine due to failure to comply with an utilization obligation or a temporary utilization or ancillary utilization obligation.

The owners are required to fulfil their cultivation obligation!

Sincerely

Ferenc Zsálek

Mayor
